DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR BIOLOGY
The University of British Columbia
SUMMER 2018
Application For Teaching Assistantships In BIOC VSP

Name: ___________________________ SIN & UBC id#: ___________________________

Date of Birth: ____________________________

Research Supervisor: ____________________________

Telephone Numbers  – Lab: ____________
- Home: ____________

E-mail Address: ____________________________

Application(s) for:  
Quarter-time: ________
Eighth-time: ________

Undergraduate Biochemistry Training and Previous Experience

Degree(s) Obtained (Discipline, Place, Date):

Bachelors: ____________________________
Masters: ____________________________

Program Registered in for 2017/2018 (PhD or MSc): ____________________________

Signature: ____________________________ Date: ____________________________

Research Supervisor (Print Name & Signature): ____________________________
Brief outlines for the University of B.C. Biochemistry 303 course are given below. Please outline all undergraduate biochemistry courses that you have successfully completed that are equivalent to or more advanced than these courses.

**Bioc 303 Molecular Biochemistry** – Structure, function and metabolism of lipids, steroids, amino acids and nucleotides; the biochemistry and molecular biology of replication, transcription, translation and gene regulation. For Majors and Honours students in Biochemistry and Honours students in other life science programs.

Please outline any previous experience you have that may be relevant to your application.
