Student and Postdoc Teaching Opportunity

The Department of Biochemistry & Molecular Biology is seeking graduate students and postdoctoral fellows to teach within the Vancouver Summer Program in July/August 2022.

**Vancouver Summer Program:** The Vancouver Summer Program (VSP) is a campus-wide program at UBC which offers international students an opportunity to visit Vancouver and complete two undergraduate courses through a condensed one-month program. The Department of Biochemistry & Molecular Biology offers two courses within this program, each covering diverse topics in biochemistry. The content taught within the courses is flexible and will depend upon the interest and expertise of the instructors. Information regarding the VSP can be found at the link below:

[https://vancouversummerprogram.ubc.ca/course-packages/medicine/](https://vancouversummerprogram.ubc.ca/course-packages/medicine/)

**Teaching Opportunity:** Graduate students and postdoctoral fellows will be hired to teach within the VSP courses offered by the Department of Biochemistry & Molecular Biology. Instructors will receive mentorship and support from a teaching faculty member during both course development and delivery. Each course is scheduled for 36 hours of class time. Each graduate student or postdoctoral fellow can teach one half of one course (18 hours) or less, depending on their level of experience and interest in teaching.

**Qualifications:** An undergraduate degree in biochemistry or a related discipline. Both graduate students and postdoctoral fellows will be considered. A strong background in biochemistry is essential.

**Application Process:** Applicants should send a cover letter and curriculum vitae to Zaira Khan (zaira.khan@ubc.ca). Applications will be accepted until **January 14, 2022 at 5pm**.

**Questions:** Please contact Lindsay Rogers (lindsay.rogers@ubc.ca).
